DETAILED ACTION

1. Claims 1-6 are pending. Claim 1 has been amended in this communication filed 04/23/07 entered as Response After Non-Final Action (Informal or Non-Responsive Action).
2. The objections to the Specification have been overcome by Applicants' amendments to the Specification and the objections are hereby withdrawn.
3. The 35 USC 112 second paragraph rejection for claim 1 has been overcome by Applicants' amendment in the prior Office Action and is hereby withdrawn. However, a 35 USC 112 second paragraph rejection still remains for claim 1 as set forth here below.

Claim Objections

4. Claim 1 is objected to because of the following informalities: Claim 1 is in the improper method claim format. For a claim to be in the proper method claim format the claim limitation should begin with a verb ending in an "ing" word. For example, the second claim limitation should recite "responding to entry by the broker of the given data, ...;" or "applying a given ..., responsive to entry by the broker of the given data;" and the third claim limitation should be recited similar to the second claim limitation. Also claim 1 recites "responsive to entry by the broker of given data ... who meet criteria ...". This claim limitation would be better recited as "responsive to entry by the broker of given, ... who meet the criteria ...". Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "exposing to the broker a set of at least one generic mortgage lender profile ...". This claim limitation is unclear and indefinite as written. Do Applicants' mean "exposing to the broker at least one of a generic mortgage lender profile ..." or "exposing to the broker a set of one or more specific wholesale lenders to at least one generic mortgage lender profile ...;" ?

Claims 2-6 are also rejected because of their dependency from a rejected base claim.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference here below is being provided for the Applicants' review and any comments.

Lavine et al (US 6,233,566) disclosed loan wholesaling as the third phase of a loan.

There has not been an art rejection given at the present time because of the remaining objections and 35 USC 112 second paragraph rejection.

After these objections and the 35 USC 112 second paragraph rejection have been overcome with there not being any other objections and rejections, an updated and extensive search will be performed and if no one knows of any reference to reject

the claims and no other references are found in the updated and extensive search, the application will be allowed.
